Meet Your Program – Atrium

August 31st, 2026, 2:00pm to 3:30pm | Atrium (45W)

	Name	**Phone Number**
Primary Contact	Tabitha Terrance	437-982-4101
Secondary Contact	Aurora Shen	416-346-7628

Event Run Sheet

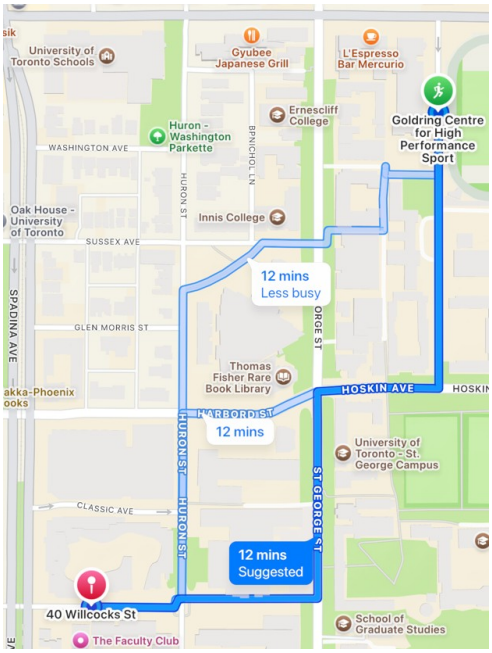

TIME	**TASK**	**RESPONSIBILITIES**
1:35	Meet Primary	• Meet with event primary outside of the left doors
1:35 – 1:50	Return to NC	• Head back to New College
1:50 – 2:00	Collecting Supplies & Set Up	• Retrieve ___ sets of 80 popsicle sticks, ____ rolls of tape and 1 box of juice boxes from WI2002. • Head to the **Atrium,** 45 Willcocks ground floor (outside the NCSC Office) and set up the testing tables (as shown below) by placing two tables five popsicle sticks apart
2:00 – 2:30	Welcome & Divide Students	• As students arrive from Goldring welcome them to Meet Your Program and ask them to form groups of 6 students
2:30 – 2:40	Introduce activity	• Once all students have arrived, ensure that all students have been placed in a group • Give each group one set of materials: 80 popsicle sticks and one roll of tape **Activity Explanation Script:** Welcome to Meet Your Program! An event where you can get to know people in your program and hopefully make new friends, while competing in a friendly bridge building competition. The goal of the challenge is to see which group can build a bridge within 30 minutes that can withstand the weight of most juice boxes. **Here are the Rules:** • You can only use the material provided to you, which includes 80 popsicle sticks and a roll of

		tape. • The bridge will be placed between two tables that are five popsicle sticks apart lengthwise. So ensure that the overall length of the bridge is longer than this. • Your bridge must support itself without leaning on or touching anything else. • Lastly, materials must be used safely.
2:40 – 3:10	Bridge Building time	• Set a timer for 30 minutes • Monitor NewCs to ensure that rules are being followed and that materials are being used in their intended manner. • Make an announcement after **15 minutes** has passed, letting students know that they have reached the halfway point. • Make an announcement after **25 minutes** has passed, letting students know that there is only five minutes left.
3:10 – 3:30	Bridge Testing	• Let students know that time has run out to build their bridges. • Ask students to bring their bridges to the testing table one group at a time. Bridge Testing 1. Place bridge on testing table with gap of five popsicle sticks 2. Place juice boxes on the bridges one at a time to test how much load they can bear. 3. Keep count of how many juice boxes each group's bridge can hold – the bridge that holds the most juice boxes wins! Invite students to take their bridges with them if they wish to.
3:30	Closing Statement	"Congratulations to the winner, hope everyone had fun building bridges and connections within the New College community. The PLs will now lead you to the quad for the next orientations events, which include the New College Clubs Fair, a tour of New College, with an accessible route running at 3:55 and 4:25, International

		Student Social for those that registered for international orientation, a Student Center Open house, and a mocktail Station in Wilson lounge.”
3:30 – 3:45	Clean Up	• Throw away any abandoned bridges, used supplies, and any trash remaining. • Collect unused material; popsicle sticks, rolls of tape, and juice boxes. Return them to WI2002.

Additional Information

Goldring to New College Map:

Testing Table Set Up: (two tables + five popsicle sticks)

Weather Plan

No changes will be made to the program in the event of inclement weather as all activities take place indoors.
NOTE: Students will be travelling from Goldring to New College after the Opening Ceremony. In the case of inclement weather, student arrival may be delayed.

- Leaders will be aware of this and instructed to reduce building time from 30 minutes to 20-25 minutes, depending on the significance of delay.
